

Appendix

Notes and brainstorming:

IA Notes

Heidi

Log Driving Habits

When she drives

fuel economy

Where she drives?

Trip calculator?

price per mile

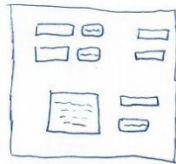

When she drives the most

Average per day

Road trip - price, people splitting gas money, trips/destinations

wants log - reviewable data

wants simplicity

Bibliography:

"How to Use Combo Boxes." *The Java Tutorials*. Oracle, 2014. Web. 19 Mar. 2014.

<<http://docs.oracle.com/javase/tutorial/uiswing/components/combobox.html#uneditable>>. I used this site to check how to use a combo box. The source is very credible because it is directly from the writers of java.
